MEMORANDUM AND

REFERENCE BOOK

AND TOURISTS' GUIDE TO

SALT LAKE CITY, UTAH.

PUBLISHED BY J. F. GARRETTY,

December, 1890.

READERS MAY RELY upon the information contained in this book being as accurate as great care can make a work of this character in such a rapidly growing place as Salt Lake City, where new business houses are constantly starting up and old ones changing and removing. **THEY MAY DEPEND** upon the integrity and high character of the business firms patronizing the work, the advertisements of none but first-class houses being accepted. This statement, unnecessary for residents, is made for the benefit of strangers.

ADVERTISERS MAY REST ASSURED that in succeeding editions every effort will be made to improve this work, with the view of making it an Indispensable Pocket Companion for Every Man in this vicinity. The space devoted to advertising is *Strictly Limited* to a small portion of the book, while its circulation—**21,000** copies—is *Far Greater* than that of *any other* medium in this region.

THANKS. THE PUBLISHER wishes to acknowledge the many obligations he is under to the Business Men represented in this work who have so liberally seconded his efforts to put forth a popular work of utility, convenience and value; to Mr. H. M. Clinton, Manager of the R. L. Polk Directory Co., for the generous permission to make use of their valuable City Directory; to the many citizens and public officials who have assisted him in obtaining the necessary information.

SADDLE HORSES, ALL GAITS

How Streets are Named

The system of street nomenclature used in this city usually so perplexing to strangers, is in reality a very simple one. Taking the Temple Block as a base, the streets are numbered according to the distance in block from the base. The streets running along the four sides of the block are North Temple, East Temple (popularly called Main), South Temple and West Temple, respectively. The next streets north, east, south and west, parallel with the above named streets, are First North, First East, First South and First West, respectively. The next parallel streets are Second North, Second East, Second South and Second West, and so on in regular order of number to the limits of the city, for all the 8-rod streets. The narrower system of streets in the northeast quarter of the city are named as follows: Commencing on the north side of South Temple, the first street running north, east of First East street, is A street; the next street east of, and parallel thereto, is B street; the next is C street and so on to the eastern limits of the city. Those streets crossing the lettered streets at right angles are numbered. The first street north of and parallel to South Temple is First street, the next Second, and so on to the northern limits of the city. Besides the above regular systems of streets, there are others running irregularly or short ones sandwiched between the regular streets.

SIGNALS—First, general alarm for call men will be rung on City Hall bell for all fires in business portion of city. This takes in boxes 12, 13, 14, 15, 21, 23, 31, 32, 34, 35, 41, 123, 132. Second alarm will be distinguished from first by slow taps of bell giving number of nearest box to fire, being repeated 4 times. A short interval between taps separates figures of any number. Thus III-II-I=321. No general alarm will be rung outside of present fire limits. All policeman, night watchmen and residents at four corners nearest boxes have keys. Simply turning key in box rings alarm and holds key until released by chief's key.

FIRE LIMITS—The area within which frame buildings cannot be erected is bounded on east by 3d E, on west by 1st W, on north by N Temple, on south by 4th S.

Drivers for Calling.

The Church of Jesus Christ of Latter-Day Saints.

SERVICES in the Tabernacle Sundays 2 pm. Also in the various ward meeting houses: Sunday school 10 am; evening meetings 6 pm.

PRIESTHOOD—There are two priesthoods—the Melchisedek and Aaronic. The Melchisedek is the higher, comprising apostles, patriarchs, high priests, seventies and elders. The Aaronic is the subordinate, acting under the direction of the Melchisedek and comprises bishops, priests, teachers and deacons. No man can hold any office in either unless by authoritative call.

ORGANIZATION—The first presidency consists of a president and 2 counselors, chosen by the high priesthood. The president's duty is to be "like unto Moses; to be a seer, revelator, translator and prophet." The twelve apostles are a high council, next in authority. The apostles are chosen from the seventies and their duty is to build up the church and regulate its affairs under the direction of the first presidency. Next in order of rank are the seventies, whose special office is to preach the gospel. The seventies are chosen from the elders and are organized into various councils or quorums of 70. Each council has 7 presidents, one presiding over the others. The 7 presidents of the first council of seventies also preside over all the councils. There are now 103 councils of 70 members each. Next in order of rank come the elders, whose office is to baptise, ordain, lay on hands and expound. Elders are organized in councils of 96. The presidency of the Aaronic priesthood is in the bishopric, one of whom is the presiding bishop. Bishops also preside over the priests' councils of 48. Besides preaching and baptizing, the duty of a priest is to visit the members. Next in rank are the teachers, organized in councils of 24, whose duties are to watch over the church and put down evil among the members. Next come the deacons, organized in councils of 12, whose duties are to assist the teachers. Each of the various councils has a president, and each president two counselors. The branches of the church are organized into stakes of Zion, and each stake subdivided into an irregular number of wards. Each stake has a president, counselors and high council of 12 high priests, and each ward is presided over by a bishop and 2 counselors. In Utah and adjoining states there are 32 stakes, comprising about 425 bishops' wards. Each stake holds a quarterly conference. The church holds two general conferences yearly, commencing usually on the 6th of April and Oct, and lasting 3 or 4 days.

Miscellaneous Utah Information.

ARTESIAN WATER--There are perhaps more than 1,000 flowing artesian wells in the vicinity of Salt Lake City, two veins of water lying 115 and 260 feet respectively beneath the surface.

CLIMATE--The records of 14 years' signal service observation in Salt Lake City, show the temperature to be as follows: average mean for spring 49.6 deg; summer 72.5 deg; fall 51.7 deg; winter 32 deg; annual 51.5 deg; daily range 20.1 deg; monthly range 47.5 deg; relative humidity 48.9 per cent for the year, 44.8 per cent for spring winter and fall and 38.2 per cent for summer, being surpassed in dryness only by El Paso, Tex. and Santa Fe, N Mex; there are 277 fair and only 50.1 full cloudy days in the year.

SALT LAKE at one time was 1000 feet higher than at present. It is now 75 miles long, 50 wide, 36 feet deep and 17 per cent salt, or 7 times more than sea water, has no outlet while 10,000 cu ft of water flow into it each second through the Bear, Weber, Ogden, and Jordan rivers, whose headwaters are all close together near the western end of the Uintah mountains, 60 to 75 miles east of this city; these mountains are 12,000 and 14,000 feet high. The range of mountains immediately east of the city is the Wasatch 9,000 to 11,000 ft high; the range west of the city is the Oquirrh, 6,000 feet high.

IRRIGATION--The duty achieved by water in irrigating is 85 acres of sandy and 100 acres of clayey soil per second cubic foot. The season begins May 15, closes Sept 15.

LAND--Unoccupied government lands in Utah, 31,000,000 acres; surveyed 12,431,745. During the past year 310,236 acres were filed upon and 74,436 acres proved up. Utah school lands amount to 46,080 acres.

MISCELLANEOUS--July 24, 1847, 143 Mormons, led by Brigham Young, entered Salt Lake valley through Emigration canyon and at once founded the city of Salt Lake. Large numbers of immigrants of the same faith have followed them every year since, averaging about 1,800 per year for the past 9 years. The area of Utah is 84,476 sq miles, the assessed valuation for 1890 being \$105,958,732. There are 1,150 miles of railway in the Territory. During the past 11 years the production of lead, copper, silver and gold in Utah aggregates \$78,-495,045, last year's product amounting to \$8,830,852. During the past year 88,551 tons of salt were extracted from Salt Lake; during the same period 126 companies, with a capitalization of \$47,932,000, were incorporated in Utah. It is considered by the best informed persons

Paying Mines in Utah

It is impossible to give anything like a full list of the profitable mines in Utah. One reason for this is that only a few mining companies make public statements of their operations, while the great majority refuse to make any disclosures whatever concerning their business. There is good reason to believe, however, that among the more noted mining properties in this territory the following are either dividend payers, or are paying for their own development, or if idle have ore in quantity and character to pay if worked: **PARK CITY**--Ontario, Daly, Crescent, Anchor, Woodside, Mayflower, Northland & Nevada, Apex, Alliance, Creole, Silver Key, Glencoe, Roaring Lion, Southern Tier. **BIG COTTONWOOD**--Maxfield, Antelope & Prince of Wales, Queen Bess & Carrie. **LITTLE COTTONWOOD**--American Emma, Joab Lawrence, Eclipse, City of Rocks, Evergreen, Congo, Stanley, Greeley. **AMERICAN FORK**--Pittsburg, American Fork. **FRISCO**--Horn Silver, Talisman, Morrison Bros' property. **BINGHAM**--Old Telegraph, Live Pine, So Galena, Jordan, Niagara group, Highland, Stuart No 1, Stuart No 2, Nast, York, Mary, Brooklyn, Lead, Yosemite No. 1, Yosemite No. 2, Tiewaukee, Winnemuck, Benton, Badger, Queen, Lucky Boy, Watson Placer. **TINTIC**--Eureka Hill, Bullion Beck and Champion, Centennial Eureka, Keystone, Godiva, Mormon Chief, Eagle, Governor, Mammoth group, American Eagle, Swansea, Park, Northern Spy, Tesora, Carissa, Golden Treasure, Black Dragon, Dew Drop. **OPHIR**--Monarch, Chloride Gem, St. Louis Company, Gray Rock, Buck Horn, Clara, Jim Fisk, Winter Quarters, Col. Wall's Property, Brooklyn, Legal Tender, Hidden Treasure, Queen of the Hills, Utah Queen, Leonora. **STOCKTON**--Calumet and Muscatine group, Silver King, Catherine, Honorine, Third Term. **CAMP FLOYD**--Sparrow Hawk, Manning's Property. **MARYSVALE**--Ferguson group. Besides the above there are many others in the adjoining States which are tributary to Salt Lake City.

Information for Travelers.

On most western railways, children under 5 years ride free, under 12 half fare; on stage lines under 3 free, under 12 half fare. Baggage--150 lbs free on full ticket, 75 lbs on half ticket; 2d class tickets secure the traveler practically the same comforts as 1st class. Colonist sleepers at 50c per night are equally as comfortable as the more stylish palace car.

Points of Law on Common Subjects.

It is a fraud to conceal a fraud.

An uncashed check is no payment.

Ignorance of the law excuses no one.

The acts of one partner bind all the others.

Agents are responsible to their principals for errors.

The law compels no one to do impossibilities.

An agreement without consideration is void.

A receipt for money paid is not legally conclusive.

Special partners not liable beyond their contribution.

Altering a note in any manner by the holder makes it void.

If a note is lost or stolen it does not release the maker; he must pay the debt.

Each individual of a partnership is responsible for the whole amount of the firm's debts.

If the time of payment of a note is not inserted it is held to be payable on demand.

The loss falls on the bank paying a forged or raised check.

It is unsafe to buy a negotiable instrument past due; the purchaser takes it subject to any equities which may exist in favor of the maker.

The obligations and responsibilities of sleeping car companies are very similar to those of hotel keepers.

Common carriers have a lien upon the goods or baggage they carry for their compensation, but are also responsible for loss or injury to the goods or persons in their care, whether such loss or injury occurs through their fault or not, except it occur through the fault of the person injured. Carriers are not responsible for baggage not delivered into their care.

The law of finding is that the finder has a clear title against everyone but the owner. The occupant or owner of the premises where the article was found has no right to demand it, nor in the absence of statutory provision, have the police. Again if the finder lose the article and it be found again he may reclaim it from the last finder.

A hotel keeper may refuse to receive or he may eject a person who is drunk, disorderly or afflicted with contagious disease. He has a lien upon the personal property brought into the hotel by the guest, but he is responsible for loss, damage or injury to the persons and property of the guest in his care, which may occur through his own acts or negligence or those of his servants or other guests. However, contributory negligence on the part of the guest sustaining loss or injury will exonerate the hotel keeper. Transients only are guests and not regular boarders.

Pedestrians on the road or street crossings have no prior right of way over passing vehicles; both must use proper care to avoid an accident.

On the road every person must exercise reasonable care to prevent collisions and accidents, whether others

“Mormon” Publications at

Telephone No. 211.

to so or not. Negligence on the part of no person will be excused by the negligence, ignorance or perversity of others. However, a person lawfully using a public highway may assume that others will exercise ordinary care. In general, vehicles meeting should bear to the right. Going in the same direction the vehicle in advance is entitled to the road, where passage alongside is practicable; when not practicable the foremost should yield an equal share of the road. Light vehicles must yield the road to loaded ones and a traveler's equipage must be in good condition.

Interest Table.

On \$1 at various rates for various periods of time.

EXAMPLE--Suppose you wish to find the exact interest on \$567.13 for 7 years 7 mos and 17 days at 7 per cent. By examining the table you find the interest on \$1 for 4 years = .28 and for 3 years .21. Adding the two gives you the interest for 7 years. In the same way you find the interest for 4 mos = .02333 and for three months .01750 or .04083 for 7 mos. In similar manner the interest for 10 days and for 7 days = the interest for 7 days or .00330. Adding these amounts together will give the interest on \$1 for the required time or .52413. Multiply this by the principal \$567.13 and the result will show the exact interest for the required time to be 302.9211469 or by omitting the superfluous decimals 302.92.
